International Journal of Cosmetic Science **18**, 281–283 (1996)

Subject index

π-π interactions: hydrophobic interactions; reactive dyes; dyeing processes, 123
Aesculus hippocastanum: *Rhamnaus purshiana; Cinnamomum zeylanicum*; solar protection factor; maceration; microwave; *Hamamelis virginia; Matricaria recutita*, 87
Anti-ageing: moisturization; oxygen; perfluorodecalin, 137
Antimicrobial activity: toxicology; preservation; silver chloride; titanium dioxide, 151

Blood flow: skin; inflammation; perfusion imaging, 259

Catalase: spa water; stratum corneum; skin, free radical scavenger, 267
Ceramide 1: skin xerosis; linoleic acid, 1
Cinnamomum zeylanicum: solar protection factor; maceration; microwave; *Hamamelis virginiana; Matricaria recutita; Aesculus hippocastanum; Rhamnaus purshiana*, 87
COLIPA recommendations: Sun protection factor; solar simulation;
Cosmetic benefits: skin irritation; lactic acid; L(+) and D(−) forms, 75
Cosmetic creams: quality control guidelines; microbial spoilage, 25
Cosmetic emulsions: parabens percutaneous absorption, 57
Cosmetic formulations: rheology; phase diagrams; transparent gel; polar ingredients, 179
Cosmetic UV filters: UV-B; UV-A; *in vitro* model; photostability, 167

Detergents: fragrances and flavours; liquid crystals; micellar solutions; microemulsions phase equilibria; surfactants, 43
Dichlorophenyl-imidazoldioxolan: sebum; oily skin; follicular reservoir, 219
Dyeing processes: $\pi - \pi$ interactions; hydrophobic interactions; reactive dyes, 123

Efficacy spectra: COLIPA recommendations; Sun protection factor; solar simulation,
Erythem/sunburn: skin protection; sunscreen; sunprotection factor; *in-vivo* test method; Europe (COLIPA), 204

Europe (COLIPA): skin protection; sunscreen; erythema/sunburn; sun protection factor; *in-vivo* test method, 204

Floral odour: muguet; structure-odour relationships; tetrahydropyranyl ethers; tetrahydrofuranyl ethers; spiranes, 67
Follicular reservoir: sebum; oily skin; dichlorophenyl-imidazoldioxolan, 219
Fragrance; headspace; skin; perfume; olfactory; underarm; microbial, 238
Fragrances and flavours: liquid crystals; micellar solutions; microemulsions; phase equilibria; surfactants; detergents, 43
Free radical scavenger: spa water; catalase; stratum corneum; skin, 267

Gelling time: gelling process; rheological behaviour; glyceride gels, 229
Gelling process: rheological behaviour; gelling time; glyceride gels, 229
Glyceride gels: gelling process; rheological behaviour; gelling time, 229
Glycolic acid: multiple emulsion; release mechanism; swelling-breakdown, 103

Hamamelis virginiana: *Matricaria recutita; Aesculus hippocastanum; Rhamnaus purshiana; Cinnamomum zeylanicum*; solar protection factor; maceration; microwave, 87
Headspace: skin; perfume; fragrance; olfactory; underarm; microbial, 238
Hydrophobic interactions: reactive dyes; dyeing processes; π-π interactions, 123

***In vitro* model:** photostability; cosmetic UV filters; UV-B: UV-A, 167
***In vitro* test method:** skin protection; sunscreen; erythema/sunburn; sun protection factor; Europe (COLIPA), 204
Inflammation: skin; blood flow; perfusion imaging, 259

L(+) and D(–) forms: cosmetic benefits; skin irritation; lactic acid, 75
Lactic acid: L(+) and D(–) forms; cosmetic benefits; skin irritation, 75
Linoleic acid: ceramide 1; skin xerosis, 1

Liquid cyrstals: micellar solutions; microemulsions; phase equilibria; surfactants; detergents; fragrances and flavours, 43

Maceration: Microwave; *Hamamelis virginiana; Matricaria recutita; Aesculus hippocastanum; Rhamnaus purshiana; Cinnamomum zeylanicum* solar protection factor, 87

Matricaria recutita: *Aesculus hippocastanum; Rhamnaus purshiana; Cinnamomum zeylanicum*; solar protection factor; maceration; microwave; *Hamamelis virginiana*, 87

Micellar solutions: microemulsions; phase equilibria; surfactants; detergents; fragrances and flavours; liquid crystals, 43

Microbial spoilage: cosmetic creams; quality control guidelines, 25

Microemulsions: phase equilibria; surfactants; detergents; fragrances and flavours; liquid cyrstals; micellar solutions, 43

Microwave: *Hamamelis virginiana; Matricaria recutita; Aesculus hippocastanum; Rhamnaus purshiana; Cinnamomum zeylanicum;* solar protection factor; maceration, 87

Moisturization: oxygen; perfluorodecalin; anti-ageing, 137

Muguet: structure-odour relationships; tetrahydropyranyl ethers; tetrahydrofuranyl ethers; spirane; floral odour, 67

Multiple emulsion: release mechanism; swelling-breakdown; glcolic acid, 103

Oily skin: sebum; dichlorophenyl-imidazoldioxolan; follicular reservoir, 219

Oxygen: perfluorodecalin; anti-ageing; moisturization, 137

Parabens percutaneous absorption: cosmetic emulsions, 57

Perfluorodecalin: anti-ageing; moisturization; oxygen, 137

Perfume: headspace; skin; fragrance; olfactory; underarm; microbial, 238

Perfusion imaging: skin; blood flow; inflammation, 259

pH: W/O emulsions; solvent phase separation, 249

Phase diagrams: transparent gel; polar ingredients; cosmetic formulations; rheology, 179

Phase equilibria: surfactants; detergents; fragrances and flavours; liquid crystals; micellar solutions; microemulsions, 43

Photostability: cosmetic UV filters; UV-B; UV-A; *in vitro* model, 167

Preservation: silver chloride; titanium dioxide; antimicrobial activity; toxicology, 151

Quality control guidelines: microbial spoilage; cosmetic creams, 25

Reactive dyes: dyeing processes; π-π interactions; hydrophobic interactions, 123

Release mechanisms: swelling-breakdown; glycolic acid; multiple emulsion, 103

Rhamnaus purshiana: *Cinnamomum zeylanicum*; solar protection factor; maceration; microwave; *Hamamelis virginiana; Matricaria recutita; Aesculus hippocastanum*, 87

Rheology: phase diagrams; transparent gel; polar ingredients; cosmetic formulations, 179

Rheological behaviour: gelling process; gelling time; glyceride gels, 229

Sebum: oily skin; dichlorophenyl-imidazoldioxolan; follicular reservoir, 219

Silver chloride: titanium dioxide; antimicrobial activity; toxicology; preservation, 151

Skin: headspace; perfume; fragrance; olfactory; underarm; microbial, 238

Skin: blood flow; inflammation; perfusion imaging, 259

Skin: spa water; catalase; stratum corneum; free radical scavenger, 267

Skin irritation: lactic acid; (L(+) and D(−) forms; cosmetic benefits, 75

Skin protection: sunscreen, erythema/sunburn; sun protection factor; *in-vivo* test method; Europe (COLIPA), 203

Skin xerosis: linoleic acid; ceramide 1, 1

Solar protection factor: maceration; microwave; *Hamamelis virginiana; Matricaria recutita; Aesculus hippocastanum; Rhamnaus purshiana; Cinnamomum zeylanicum*, 87

Solar simulation: spectral distribution of irradiances; efficacy spectra; COLIPA recommendations; sun protection factor, spectral distribution of irradiances, 13

Solvent phase separation: pH; W/O emulsions, 249

Spa water: catalase; stratum corneum; skin; free radical scavenger, 267

Spectral distribution of irradiances: efficacy spectra; COLIPA recommendations; Sun protection factor; solar simulation, 13

Spiranes: floral odour; muguet; structure-odour relationships; tetrahydropyranyl ethers; tetrahydrofuranyl ethers, 67

Stratum corneum: spa water; catalase; skin; free radical scavenger, 267

Structure-odour relationships: tetrahydropyranyl ethers; tetrahydrofuranyl ethers; spiranes; floral odour; muguet, 67

Sun protection factor: solar simulation; spectral distribution of irradiances; efficacy spectra; COLIPA recommendations, 13

Sun protection factor: skin protection; sunscreen; erythema/sunburn; *in-vivo* test method; Europe (COLIPA), 204

Surfactants: detergents; fragrances and flavours; liquid crystals; micellar solutions; microemulsions phase equilibria, 43

Swelling-breakdown: glycolic acid; multiple emulsion; release mechanism, 103

Tetrahydrofuranyl ethers: spiranes; floral odour; muguet; structure-odeur relationships; tetrahydropyranyl ethers, 67

Tetrahydropyranyl ethers: tetrahydrofuranyl ethers; spiranes; floral odour; muguet; structure-odour relationships, 67

Titanium dioxide: antimicrobial activity; toxicology; preservation; silver chloride, 151

Toxicology: preservation; silver chloride; titanium dioxide; antimicrobial activity, 151

Transparent gel: polar ingredients; cosmetic formulations; rheology; phase diagrams, 179

UV-A: *in vitro* model; photstability; cosmetic UV filters; UV-B, 167

UV-B: UV-A; *in vitro* model; photostability; cosmetic UV filters, 167

W/O emulsions: pH; solvent phase separation, 249
